1. Mr. Gleason, Executive Secretary to Sen. Knowland, informed this office that Sen. Knowland would leave on 23 August, and that he would like the CIA briefing in his office at the Oakland Tribune at 2:00 Saturday, 22 August. BLC so informed the IG office.

2. At the Senate Investigating Committee hearing, Sen. McCarthy requested Harry D. Merold, GPO Production Manager and Assistant Security Office, to ascertain (and inform the Committee by the morning of 18 August) whether any material classified below "Secret" was being printed in the special building where security regulations are tighter. (Senator McCarthy also seemed confused as to the meaning of "Restricted Data".) Mr. Houston passed this information on to Col. White.
